Design Dinetown Your Way!

Our aim is to raise awareness of the role of play for creativity, learning, and development and to build and share knowledge about how to engage children in learning-rich play activities.

Create a new story with prepared, cooked food items to fantasize and govern your own small world of castles, skyscrapers, constructed spaceships, and designed submarines.

Batter up, little chefs, and build food legos that cannot be limited by our imaginations. You are a block away from the final product.

It is not a cooking event for the kids. It is a fun-filled assembling food lego building activity for children.
